

Nurturing the New Force of Erasmus Champions in School Education

About ERA4SE

ERA4SE is an Erasmus+ project in the **school education** field, aiming at boosting **schools motivation and capacity** to successfully generate, participate, **implement and valorize Erasmus+ initiatives**.

The Strategy

School partners have strategically entered into **regional collaborations with official Authorities for Teachers Continuous Professional Development** and experienced Consultancy companies, to **pilot test a supportive methodology** establishing within the schools, teams of teachers/superheroes that can cope with the Erasmus+ program, navigate the opportunities, translate their needs and the surrounding ecosystem's needs into projects and participate in international initiatives generating meaningful impact for the school and the local community.

ERA4SE seeks to

- Support educators, youth workers, educational leaders and support staff;
- Strengthen the profile of the teaching professions;
- Build capacity for promoting and facilitating recognition of learning periods abroad.

Our innovative method

Founding the Erasmus+ SuperTeams

It aims to create **a group of specialists able to seize and fully exploit the opportunities of Erasmus+** (so-called superhero teams)! The technical and school partners have worked together to produce a **comprehensive course containing tools, guides, lessons and support models for moving through the Erasmus+ programme.**

The materials developed are available at www.era4se.eu/resources.

Framing the mobility knowledge

It aims to have **guidelines for organising, evaluating and recognising the learning experience of students during Erasmus mobilities!** Many educators find it difficult to make Erasmus activities dialogue with school curricula. The **objective is to facilitate the recognition of learning outcomes in the national curricula and to accelerate the motivation of the educational community** to access these opportunities and provide them to their students, as mobility will no longer be regarded as an 'extra activity', but as an integral part of school activities.
